THE LAKESIDE HOSPITAL ELECTRIC AUTOMOBILE AMBULANCE.

REPORT OF THE PRESIDENT.

The year just ended has been one of very large forward movement for Lakeside Hospital in many respects. The Endowment Funds of the hospital have been increased during the year from \$630,000 to \$905,000, an increase of \$275,000. \$10,000 of this increase was a bequest left by the late Mrs. Ann Walworth of this city, and \$18,010 was the remainder of the specific bequest of Mrs. Ann Eliza Clark, through her executors, Messrs. W. S. Tyler and W. L. Rice.

During the year twenty-eight shares of Masonic stock left the hospital by the late Honorable Amos P. Townsend, was sold by order of the Board, netting \$1,400, which was added to the Endowment Funds.

Messrs. L. C. Hanna, W. S. Tyler, W. G. and Samuel Mather also paid during the year the pledges they made toward the Endowment a year ago in the several sums of \$100,000, \$25,000, \$20,000 and \$100,000. It should be remembered, however, that the larger part of these increases is in reality a capitalization of yearly subscriptions previously given and previously appearing in the Treasurer's accounts as yearly subscriptions in Guaranty Account. The yearly income of the Hospital, therefore, is not in reality increased by these large gifts although the finances of the Hospital are placed, of course, on a much more permanent and stable basis through such capitalization of yearly subscriptions.

The Board of Trustees have held five meetings during the last twelve months, and the Executive Committee have held ten meetings. In addition to these meetings there have been monthly informal meetings of the Executive Committee with the Visiting Staff on the first day of each month when hospital matters of mutual interest are freely discussed.

The reports of Superintendent Ranney and of Miss Ellis, Principal of the Training School contain all necessary information regarding the operating side of the Hospital: while the report of Mrs. North, Secretary of our active Board of Lady Managers is also of great interest and throws much light upon hospital operations.

The report of Treasurer Tillotson and of the Treasurer of the Endowment Funds gives all details regarding our financial condition and shows that the expenses of operating the hospital during the past year have been increased over the year previous owing to some necessary increase in salaries and the unavoidable greater cost of all manner of provisions and supplies.

I desire particularly to express our deep regret at the death of Mrs. John Tod, one of the most influential and generous members of our Board of Lady Managers. Her place has been filled by the election of her daughter, Mrs.

Frank Billings, and the place made vacant on the Board of Lady Managers by the resignation of Mrs. J. Livingston Taylor, made necessary by long continued illness and absence was filled by the election of Mrs. Herbert McBride.

Plans are being prepared for a considerable enlargement of the accommodations at the Hospital both for charity and pay patients, particularly for charity patients, so far as the number of new beds go, but also in the direction of improved and quieter accommodations for pay patients. In addition to this the plans contemplate new and larger surgical operating rooms for the outside surgeons and for Dr. Crile.

A new dormitory building is also being considered in which all the house staff shall have sleeping rooms, bath rooms, dining rooms and a recreation room with library attached.

Whether we shall be able to carry out these large plans will depend upon the amount that the friends of the hospital shall subscribe to defray the cost of such construction for the Trustees will not be willing to deplete their Endowment Funds for such purpose.

Respectfully submitted,

SAMUEL MATHER,
President.

REPORT OF THE SECRETARY OF THE BOARD OF MANAGERS.

The passing of another year calls to the Board of Managers for a report of the same and while it seems as if the whole might be filled with the few words, "All is well," there have been changes, increase of work, which should not fail to be noticed.

During the four months' absence of the President the Monthly meetings of the Board were most efficiently cared for by Mrs. Sheffield, the Vice President, and it was the endeavor of the Board to make in every way a report of progressive work upon his return.

In the death of Mrs. Tod which occurred in May, the Board sustained the loss of a most valuable and beloved member, one whose many years of earnest work and liberal assistance will never be forgotten.

Aside from this there have been no other changes in membership excepting the resignation of Mrs. J. Livingston Taylor on account of long continued illness and absence from the country, which was much regretted, as she was always to the front with good deeds and good work.

For these vacancies the Trustees having selected Mrs. Frank Billings and Mrs. Herbert McBride, daughters of Mrs. Tod, the Board receive them most cordially in memory of their mother, and the same will be for them an incentive like none other for assisting in the work she so much enjoyed.

There has been much sorrow brought to the home of more than one member of the Board, and while sympathy seems cold and unsatisfactory, it has been freely offered to those who mourn.

To other members the ways of life have brought joy and prospective happiness, and long continuance of the same is the best wish offered for all participants.

While there has been the necessary routine of the work of the various committees, there has been greater effort to improve and keep in touch with the constantly increasing needs of the continual enlargement of hospital work.

The Inspection Committee has earnestly looked after and cared for order everywhere, for all repairs and, if needed, replacements, all which must be the natural demands from constant use in all departments.

After the long continued, careful study of demands and supplies, the Linen Committee reports that it has accomplished much in the matter of systematic receiving and distributing the needs of every department, which greatly helps both as to the daily work as well as economy of supplies. Expenses for supplies have greatly increased, owing to high prices for every commodity essential for their department.

The Flowers and Entertainment Committee has, with the aid of donations, been able to do much to beautify at different times, all parts of the hospital, and often to bring with a few flowers or a small plant, much good cheer to those who can only enjoy such from a bed of illness. The list of

donations shows that the Florists have been very liberal in gifts. At Christmas time such supply was purchased as the committee found necessary, so that every patient should find at the bedside some small token of the day. For the Children's Ward the committee was greatly pleased by the offer of the young ladies of the Day Nursery to provide and decorate a Christmas tree, which proved most entertaining and highly appreciated by all.

The work of the Library Committee is for the most part routine work, but as far as possible, through donations and purchase, if necessary, it has kept a supply of books, magazines and newspapers for the Hospital attendants as well as furnishing reading matter for all patients. It has been found that for the most part magazines and the like are most satisfactory for the Wards, as they can be destroyed when soiled or worn, but for this large numbers are required, and donations constantly solicited.

The report of the Donation and Invitation Committee as usual, found elsewhere. Aside from that report, however, there are other duties which belong to the Committee by way of arranging for the Graduation exercises, Thanksgiving and Christmas dinners, or any other entertainment during the year, and at no time has the committee failed to meet all requirements.

To visit the bedside of the suffering with a word of cheer to brighten the weary hour or encourage the sorrowing heart, is the work of the Visiting Relief Committee, and while it often seems a hopeless task, there still is reward sufficient to compensate every hour given to the work. The Committee has been able occasionally to supply needed aid to the convalescents when leaving the hospital in order that they may reach distant homes. Donations of clothing are often needed for such patients, and it is now proposed to keep a small supply of such as seem most essential.

The work of the Kindergarten committee is certainly one of the most interesting, for it is in touch with the little ones who are strangers in a strange land, often with the homesickness which naturally comes, no matter what the home surroundings. To care for and quiet such children is the faithful work of the nurses, to entertain and in a way educate them, is the work of the Kindergarten Committee. Necessary equipments for this have been amply secured by donations and purchase. Volunteer service by many young ladies of our City has been so arranged that seldom a day passes without that hour of enjoyment which comes to be the brightest of all for the little sick ones. Truly this is a labor of love and must bring a great reward to those who have so cheerfully given their time and service.

The report of the Training School belongs to Miss Ellis, and is given elsewhere.

Thus, in a summary way the work of the past year has been outlined, and while there is much to encourage and hope for in the future, it has been only by the earnest and constant co-operation of the Superintendent and all other officials of the Hospital, that this report has been made possible.

ANNA M. NORTH,
Secretary.

REPORT OF THE SUPERINTENDENT.

Cleveland, Ohio, January 1, 1906.

The Board of Trustees of the Lakeside Hospital.

Gentlemen: I herewith present for your consideration the Fortieth Annual Report of the Lakeside Hospital for the year ending December 31, 1906.

No unusual events have occurred during the past year to interrupt the progress of the Hospital work. The health of the officers and nurses has been excellent. A few isolated cases of contagious diseases among the nurses have developed, but owing to our splendid facilities for caring for such cases, we have prevented any serious epidemics.

In compiling the Hospital statistics for the year, we find that the daily average in attendance was 177 patients,—one more than last year. The daily average in the open wards was 137 and 40 in the private wards.

The number of days of Hospital treatment is as follows: January 4,650, February 4,592, March 5,022, April 5,715, May 5,828, June 5,490, July 5,725, August 5,456, September 5,250, October 5,549, November 5,430, December 5,906, making a total of 64,613.

The number of days of free treatment in the open wards was 28,403 or 57% of all the open ward patients admitted. At the free dispensary a slight decrease in the number of visits made to that department during the year was observed,—28,015 visits against 28,418 in 1905. There were 12,574 prescriptions written and 6058 surgical dressings done. The free dispensary together with the wards of the Hospital furnished to the sick poor of Cleveland 56,820 days of treatment free of charge.

The total expenditures of the Hospital amounted to \$146,593.19. This is an increase over the following year, due to the increase in salaries, insurance and cost of all maintenance supplies.

The disbursements of the expenditures are shown in the following table:

ADMINISTRATION:

Insurance (\$1,980.00 for five
years) 2,068.50 4,969.64 15,241.96
Total Maintenance Expense \$146,593.19

NOTE: It was voted by the Trustees that the cost of the new engine entered above under "Equipment" and 4-5 of the five year insurance payment should be credited to Maintenance and charged to Permanent Equipment Account and to a new Insurance Funds Account, thus reducing the total Maintenance to \$143,309.19.

The Hospital receipts for the year from pay patients and other sources amounted to \$67,851.95, as shown in the following table:

From—

Special nursing by the School	\$ 531.73	
Open ward patients	16,002.76	
Private ward patients	43,990.86	
Emergency ward patients	226.10	
Ambulance	458.50	
Dispensary	2,277.65	
Interest on Deposits	26.57	
Miscellaneous	4,234.02	
Total Receipts		\$67,748.19

The gross per capita cost for the year was \$2.27. This estimate is based upon the entire cost of running the Hospital, including extraordinary expenses, such as insurance, real estate improvements, new equipment, the cost of operating our free dispensary and the pathological department. If all the above items of expense be deducted from the total expenditure, it would make the net per capita cost \$2.12. If the items deducted by vote of the Trustees only be deducted from the above expenditures, the per capita cost is \$2.215. In reporting such a high per capita cost it should be taken into consideration that this Hospital maintains a large (52 room) private ward pavilion, which necessarily makes the per capita cost higher than that of other institutions, which have smaller accommodations for their private patients.

IMPROVEMENTS.

Early in the year we installed a 30 K. W. generator in connection with a 50 horse power engine. With this additional equipment we are provided with a very flexible electric outfit. We already had two 75 K. W. generators and two 125 horse power engines. When they were installed it was intended that they should be used on alternate days. As the day and night load vary

considerably we found that it was not economical to operate the large units on light day loads. During the summer months the small 30 K. W. unit can do the work 20 hours out of the 24 hours per day, therefore making a great saving in the consumption of coal and prolonging the life of our larger units.

During the past year we have been washing and re-sterilizing our soiled gauze used in the operating rooms and wards. Before making use of this gauze, our Bacteriologist made repeated examinations of the re-sterilized gauze for bacteria. The results of his examinations showed that it was absolutely sterile. The operating rooms are supplied with new gauze but the washed gauze is used for dressings on the surgical wards of the Hospital. The collecting, washing and re-sterilizing can be done at a small cost. The disentangling, sorting and cutting of the gauze is done by our probationers. The saving to the Hospital by employing this method has been quite an item.

X-RAY.

When our X-Ray plant was installed November 1st, 1905, it was placed in charge of Dr. Walter C. Hill, then Assistant Superintendent. We soon discovered that it required nearly all his time to do the X-Ray work for the Hospital. On September 1st, 1906, Dr. Hill resigned his position as Assistant Superintendent and was appointed by the Hospital as its Radiographer. The increased interest manifested by the Visiting Staff in this department and the results obtained by its operation are very gratifying.

TELEPHONES.

A contract has been awarded the Cleveland Telephone Company to install a private branch exchange system at the Hospital with 33 stations. Our present house system has given the Hospital good service but we expect this new system will be more convenient and that all calls will be handled with greater rapidity, consequently improving our service greatly.

In closing, I wish to express my gratitude to the Trustees, the Lady Board of Managers, and to the Visiting Staff of the Hospital for their advice and support during the year.

My thanks are also due to those at the heads of departments of the Hospital for their conscientious and loyal services.

Yours very respectfully,

A. J. RANNEY, M. D.,
Superintendent.

REPORT OF THE SCHOOL FOR NURSES.

To the Board of Trustees of the Lakeside Hospital:

Gentlemen:—I herewith submit the Ninth Annual Report of the Lakeside Hospital School for Nurses for the year ending December 31st, 1906.

As a result of the examinations held May 11th, the following nurses were awarded the prizes offered by the School:

Third Year Class.

Miss Grace Noble (First Prize).

Miss Francis B. Latimer (Second Prize.)

Second Year Class.

Miss Emma A. Hawley (First Prize).

Miss Harriet Neal (Second Prize).

First Year Class.

Miss Lucy Witten (First Prize).

Miss Cora E. Grant (Second Prize).

These prizes were awarded to the pupils obtaining the highest general average in theoretical and practical standing.

A special prize of Seventy-five Dollars offered to the Third Year Class by the Hospital for the best paper written upon a subject selected by the Training School Committee was awarded to Miss Florence Ashton, Brantford, Ontario.

A special prize offered to the Third Year Nurses by Dr. Edward F. Cushing for the best paper written upon "The Nursing of Sick Children" was awarded to Miss Eula A. Sykes, Plymouth, Ohio.

The Nursing Staff of the School now consists of:

OFFICERS.

Principal of School	1
Assistant Principal	1
Night Supervisor	1
Supervisor of Probationers	1
Diet Instructress	1
Head Nurses	7
Total	12

PUPILS.

Third year pupils	28

First Year Pupils	11
Probationers	26
Total	97

Number of probationers entered during the year.....	42
Number of probationers accepted during the year.....	28
Number of probationers not accepted and resigned.....	14

During the year the following nurses have resigned their positions:

Miss Florence I. Moorhead, head nurse, Allen operating room, to do private nursing. Miss Grace Beale was appointed to fill the position.

Miss Elizabeth J. Renner, head nurse of the dispensary, resigned on account of illness in her family. Miss Agatha C. Hodgins was appointed.

Miss Mary Crozier, head nurse ward "L," resigned to be married. Miss Stella M. Irwin was appointed.

Miss Arvilla Walkinshaw, head nurse of the children's ward, resigned to do private nursing. Miss Katharine Sullivan, graduate of the Sick Children's Hospital, Toronto, was appointed.

Miss Lottie A. Darling, supervisor of probationers, to take charge of Grace Hospital Training School, Detroit, Michigan. Miss Bertha A. Toye was appointed.

Miss Damie E. Henry, night supervisor, to take charge of the operating rooms of the Harper Hospital, Detroit, Michigan. Miss Grace Hodgson, graduate of the Toronto General Hospital, was appointed.

Miss Bertha M. Flohr, head nurse ward "H," to do private nursing. Miss Helen I. MacRoberts, class 1905, appointed.

The general health of the pupils of the school has been good.

It has been decided by the Training School Committee that the third year pupils shall be given one month's practical experience under the directions of the Visiting Nurse Association. This work with the Visiting Nurse Association of Cleveland is to be optional with the pupils and is given with a view of broadening their training and bringing them in touch, and perhaps, in sympathy with the work done by the Association.

With the increased membership of the Lakeside Alumnae, the Association has decided to endeavor to raise money to endow a bed in one of the private wards of the Hospital for the use of their sick members. They have been encouraged in their efforts by generous donations from interested friends.

The Central Registry established by the Graduate Nurses' Association of Cleveland, has been of great value in aiding us to promptly secure graduate nurses for our private patients who wish to employ them.

Respectfully submitted,

ELIZABETH M. ELLIS,

Superintendent of Nurses and Principal of Training School.

DEATHS.

GYN. No.	DIAGNOSIS.	OPERATION.	CAUSE OF DEATH.
2241	Myoma uteri (interstitial) Bilat, Perisalpingitis and Salpingitis, (chronic). Right hydrosalpinx. Right peri-oöphoritis. Pneumonia. Post-operative.	Hystero - myomectomy. Double salpingo-oöphorectomy. Vaginal incision.	Post operative pneumonia. Post operative shock.
2275	Bilat Salpingitis and Perisalpingitis (chronic). Adherent omentum. Bilat follicular hypertrophy. Acute diffuse peritonitis.	D. & C. Double salpingectomy. Separation of adhesions vaginal puncture.	Acute diffuse peritonitis.
2300	Carcinoma cervicis uteri	None.	Exhaustion from haemorrhage of 5 mos. duration.
2369	Retained secundines, (following miscarriage) Acute toxæmia.	Manual removal of placental tissues.	Puerperal uterus. Abortion. (Staphylococcus pyogenes from uterine cavity). Early double broncho pneumonia.
2403	Perforative appendicitis with abscess formation.	Appendicectomy with drainage.	Acute localized peritonitis (from perforative appendicitis). Acute toxæmia.
2404	Myomatous uterus. Left perisalpingitis and peri-oöphoritis. Right follicular hypertrophy. Hypertrophy of thyroid	Hystero - myomectomy. Double salpingectomy. Right Oophorectomy. Appendicectomy.	Post operative shock.
2412½	Peritonitis from ruptured pyosalpinx.	None	General peritonitis. (Streptococci and B. coli communis) from ruptured pyosalpinx. Moribund on admission. Died 5½ hours later.
2418	Hydatidiform mole.	None.	Fatty degeneration of heart (extreme).
2484	Carcinoma cervicis uteri	Abdominal pan hysterectomy.	Post operative shock.
2499	Myoma uteri (subserous) Adherent. Bilat, Perisalpingitis and Peri-oöphoritis. Adherent intestines.	Hystero - myomectomy. Double salpingo-oophorectomy. Appendicectomy.	Pulmonary embolism.

REPORT OF THE PATHOLOGICAL LABORATORY.

During the year ending December 31, 1906, there were 113 autopsies performed at which the *chief* pathological conditions noted in each case were the following :

Anemia, pernicious	1	Perforation, rectum	1
Aneurism, aortic arch	5	Pericarditis, acute	1
Aneurism, abdominal	1	Pericardium, adherent	2
Atresia, congenital of oesophagus...	1	Peritonitis, acute general—	
Burns, superficial	3	Following appendicitis	2
Carcinoma, primary of liver	1	Following intestinal obstruction.	1
Carcinoma, pancreas	1	Following perforation	3
Carcinoma, stomach	5	Following pyosalpinx	1
Cellulitis	1	Following trauma	2
Cirrhosis of Liver	4	Post operative	2
Cystitis, acute	4		— 11
Endothelioma, lung	1	Pleurisy, acute sero-fibrinous	1
Enteritis	3	Pneumonia, broncho	2
Fracture of Skull	5	Pneumonia, lobar	13
Gangrene, lung. Foreign body in		Pyoneumothorax, pyogenic	1
